

Products

UPON INQUIRY WE DESIGN, PRODUCE AND ASSEMBLE FLUID VALVES FOR ANY APPLICATION

Medical own product

Valves

Zoom valve

Gears

3 splines are obtained by 5 axis CNC technology

Sleeves

Obtained through CNC, EDM sinker & Grinding technology

Aerospace parts

Obtained through 5 axis CNC technology

DESIGN & DEVELOPMENT PRODUCTS

Capability for making valves according to the features requested for any application
Testing bench for proofing pressure and additional features • Test Reports

Certifications

EN 9100
ISO 13485

Nonconventional Machining
NADCAP EDM Techonolgy

DESIGN & DEVELOPMENT VALVES FOR MEDICAL GASES AND OTHERS

VERTICAL INTEGRATION: Handle raw material • Internal production • 100 % testing
FAI Document • Handle Outsourcing treatment

Machinery

7 5 AXIS MACHINING CENTERS

9 LATHES (3 MULTITASKING MACHINES)

8 EDM WIRE AND SINKER NADCAP

1 ELECTRON BEAM MELTING (ADDITIVE MANUFACTURING)

1 FAST HOLE MACHINE

4 3 AND 4 AXIS MILLS WITH AND WITHOUT PALLET CHANGING

3 MACHINES FOR TANGENTIAL AND ROUND GRINDING

4 CMM MEASUREMENT MACHINES

Internal Capabilities

PRODUCTION PROCESSES

MILLING
TURNING
GRINDING

HAND LAPPING
DEBURRING
FAST HOLE MACHINE

LASER MARKING
HEAT TREATMENT
CUTTING

ADDITIVE MANUFACTURING EBM
EDM TECHNOLOGY
